GUILTY OF ADULTRY.

But is Driven to it by Unfortunate Circumstances.

Sick in One of Gilded Palaces of Sin, She Finds a Male "Protector."

Who Proves More Congenial Than a Paralytic Husband.

Yesterday's Bee contained an account of the arrest of a Mrs. Pratt, charged with adultery by her husband. The woman and her paramour, John Griffin, were arrested in an apartment over a Douglas street restaurant.

The case came up before the police court Tuesday afternoon, and the woman's flowing tresses and affecting story moved the hearts of every court member of the room. In 1878 she married Pratt and lived happily with him for several months, when her husband, a carpenter by trade, was stricken with paralysis. Some months after this a child was born, which shortly after its advent into this vale of tears became entirely helpless. The care of both husband and child devolved upon the woman, and for several months she struggled hard for an existence for the three. At length, despairing, she left her husband to the tender mercies of the county and sending her child to her parents in Iowa, she entered one of the houses of ill-fame in this city, where shortly after her admission she was taken ill, from which place (trifling had her removal to private apartments. Her husband learning this had them both arrested for adultery.

The woman was released, but Griffin remained to jail to await further examination.

THAT ASSAULT CASE.

The Other Side of the Story.

Edger and Whittem, charged with having committed an assault on Jas. B. Schroth, with intent to kill, were before the police court yesterday with a score of witnesses. A carriage was sent to the residence of the wound man to convey him to court, but the officer returned with a note from Dr. Darrow, stating that Schroth's wound was so serious that it would be unsafe to have him removed from his residence. Judge Hawes accordingly continued the case to Friday.

The defendants tell a much different story from the one told by Schroth and his wife, and published a few days ago in the Bee.
The defendants' version is to the effect that Schroth assaulted him with an axe, cutting him severely in the hand. He called for help, and his friend Whittem handed him an axe with which he felled Schroth to the ground just as he was in the act of striking the second blow with the axe.

—ITS NO USE TALKING. As a gentleman remarked to us the other day, "It's no use talking, fashionable goods and low prices are always appreciated by the people of Omaha; and they always bring their reward in the way of liberal patronage. A house keeping the best goods and selling them at a close margin of profit, will make more money on a year's trade than can be realized in five years on cheap goods at high prices."
—While fully endorsing this sentiment, we wondered if that was not the reason why the Atkinsons, the Leading Milliners of Omaha, were doing such an immense business this season. We can account for it in no other way, for their goods are the best and their prices the lowest of any house in the trade.
